PHENOMENAL - CITRUS
HOSPITAL DISINFECTANT DEODORANT

DESCRIPTION
An excellent disinfectant, antimicrobial agent and two-way deodorizer for use on pre-cleaned, hard, non-porous surfaces. Foaming is an adjunct supplement to normal cleaning and disinfection procedures and practices. Phenomenal is a virucidal, tuberculocidal, fungicidal, bactericidal, Pseudomonalcid, Staphylodialcid hospital use and broad spectrum disinfectant and antimicrobial agent.

APPLICATIONS
For use in industrial, institutional, commercial, medical and residential facilities, and vehicles including hospitals, ambulances, nursing homes, and dental offices and clinics; veterinary offices and animal areas; schools, libraries, laboratories, hotels and motels; restaurants and cafes; food storage, processing, packaging, handling, and distribution services; and offices, stores and more.

FEATURES & BENEFITS
• Bactericidal—Kills Escherichia coli, Pseudomonas aeruginosa, Salmonella enterica, Methicillin-resistant Staphylococcus aureus (MRSA) and more
• Virucidal against HIV-1 (AIDS virus), Herpes Simplex 1 and 2, Avian Influenza A Virus (H5N1), Pandemic 2009 H1N1 Influenza A Virus
• Sanitizes fabric and leather, shoes, athletic mats and equipment
• Controls microorganisms that create foul putrefactive odors

SPECIFICATIONS
FORM: Alcohol Based Aerosol Foam
ODOR: Citrus
COLOR: Clear Amber
dETERGENCY: None
TOXICITY: 1000 ppm OSHA TLV
WETTING ABILITY: None
STORAGE STABILITY: 1 Year +
COLD STABILITY: 0°F
PHOSPHATES: None

LABEL INFORMATION
PHENOMENAL - CITRUS
HOSPITAL DISINFECTANT DEODORANT
FEATURES, CLAIMS, AND USES
This product is an effective Virucide, Bactericide, Tuberculocide, and Fungicide on hard, nonporous surfaces when used as a disinfectant. This product has demonstrated effectiveness on professional hard, nonporous surfaces against the following microorganisms:

VIRUCIDAL: — Kills Human Immunodeficiency Virus Type 1 (HIV-1); a retrovirus. (‘AIDS’). Herpes Simplex Virus Types 1 and 2, Influenza A2/Yong Kong Virus, Adenovirus 26, 33, Parainfluenza Virus 1, 3, 4, Respirovirus, Influenza B Virus, Combined Virus. If in eyes, after the first 5 minutes. If in contact with the blood stream or normally sterile areas of the body, or (2) contacts mucous membranes but which does not ordinarily penetrate the blood barrier or enter other normally sterile sites of the body. This product may be used to protect or decontaminate critical or semi-critical medical devices or equipment during high-level disinfection.

GENERAL: Sputum container well before each use and hold a sprig or spray for use. For any exposure, hand nonporous surfaces, for not use on animals or animals. For any use where food or related products are prepared, prepared or shielded. Remove food or related products from the area being treated. Avoid use where paper product would contact counters or tabletops where food may be stored, processed or prepared. Do not use around (polycarbonate, Phenolic, polyethylene, polystyrene, polyethylene foam, polyurethane foam, rubber, metal, coated fabric, finished wood, steel, concrete, and similar nonporous surfaces:

PHYSICAL/ CHEMICAL HAZARDS:
Flammable. Contents under pressure. Keep away from heat, sparks, pilot lights, and flames. Do not puncture or incinerate container. Exposure to temperatures above 150°F (65°C) may cause bursting.

TOXICITY:
A poisonous of Federal law to use the product in a manner inconsistent with its labeling. This product is not to be used on a normal sterility high-level disinfection on any surface or equipment unless the label is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts mucous membranes but which does not ordinarily penetrate the blood barrier or enter other normally sterile sites of the body. This product may be used to protect or decontaminate critical or semi-critical medical devices or equipment during high-level disinfection.
