

KRESTO® CHERRY

PRODUCT – INFORMATION

CLEANSING

KRESTO® CHERRY is an extra-heavy duty hand cleaner, with advanced cleaning power and a fresh cherry scent that is ideal for the toughest industrial dirt. Contains a biodegradable natural scrubber, a safe solvent and the patented ingredient EUCORNOL®, which improves skin compatibility.

Description

KRESTO® CHERRY is a slightly acidic alkali-free hand cleaner which contains a biodegradable walnut shell scrubber and a safe solvent. It cleans extremely well in cases of intensely stubborn industrial dirt (e.g. grease, oil, soot, metal dust, lacquers, adhesives, etc.) that cannot be removed at all by products that are free of scrubbers and solvents.

The fresh cherry scent eliminates industrial odors on hands, leaving them clean and fresh.

Because skin is slightly acidic, KRESTO® CHERRY has been formulated with a PH level that mirrors the skin's natural mantle to help keep skin healthy. KRESTO® CHERRY contains the skin strengthening agent EUCORNOL® which, according to the results of dermatological tests, helps to prevent skin irritation.

Its natural scrubber is made from walnut shell powder which is a renewable natural resource. As such, it does not strain the environment by depleting timber supplies (as in the case of wood flours) or oil resources (as in the case of plastic scrubber.) Additionally, it is completely biodegradable. KRESTO® CHERRY has been tested and proven not to clog drains or pipes. It is easily rinsed away and is not prone to swelling.

KRESTO® CHERRY contains less solvent than most other solvent-containing hand cleaners on the market. It contains a paraffinic solvent which is not toxic like many solvents (e.g. aromatics and chlorinated hydrocarbons.)

Solvent free SOLOPOL® and KRESTO® SELECT are available for cases of moderate to heavy industrial dirt where no solvent is necessary.

Directions for Use

Rub small amount of KRESTO® CHERRY thoroughly onto dry hands.

- Add a little water and continue washing.
- Rinse with plenty of water and dry thoroughly.

Sizes

SKU #	Description	Case Pack
99027563	2000ml Softbottle	6
99027569	2000ml Softbottle	2
99027565	400ml Squeeze Bottle	9
99027564	½ Gal Pump Top Bottle	4
99027568	Trial Pack	(1) Dispenser (1) 2000ml Softbottle

Feature	Benefit
Low solvent content, good skin compatibility	Much more gentle to the skin, even with everyday use, than products with high solvent content.
Cherry Fragrance	Eliminates industrial odors on the hands
Contains the skin strengthening agent EUCORNOL®.	Helps to prevent skin irritation according to the results of dermatological tests.
Contains all natural, biodegradable walnut shell scrubbers.	For extra heavy-duty cleaning of grease, oil, ink and carbon black. Does not strain the environment by depleting timber supplies.
Easily rinsed away and is not prone to swelling, has been tested and proven not to clog drains or pipes.	No costly plumbing repairs due to scrubber in product.

Ingredients

Water
Isohexadecane
Walnut Shell Powder
Sodium Laureth Sulfate
Sulfated Castor Oil
Sodium Chloride
Cocamidopropyl Betaine
Quaternium-18 Bentonite
Dicaprylyl Ether (and) Lauryl Alcohol
Cellulose Gum
Citric Acid
Fragrance
Potassium Sorbate
2-Bromo-2-Nitropropane-1,3-Diol
Polyacrylamidomethylpropane Sulfonic Acid
Red #33

Skin Compatibility

KRESTO® CHERRY has an acceptable skin compatibility. The product leads in skin compatibility within its class of solvent-containing, heavy-duty industrial cleaners. The skin strengthening effect of the ingredient EUCORNOL® was demonstrated in a modified Duhring Chamber Test.

First Aid

For external use only. In case of accidental eye contact, immediately flush repeatedly with cold water. Should burning sensation persists, consult a physician. If KRESTO® CHERRY accidentally enters the eyes, flush thoroughly with lukewarm water. Contact a physician if burning sensation persists.

Storage Information

KRESTO® CHERRY can be stored in a closed container at room temperature for up to 30 months.

All STOKO® Skin Care products are tested for stability at temperatures between 23°F and 104°F. When tested at temperatures below 41°F and above 86°F, the products begin to fluctuate in viscosity. Hand cleaners may become cloudy or freeze partially at temperatures of 32°F or below. However, they are usable after thawing.

Additional Information

Occupational skin irritation, frequent washing or harsh climates can lead to dry, rough and chapped skin. This condition can result in irritation/rupture of the outer layer of the skin which impairs its natural protective function. To regenerate damaged tissue after work, the skin should be regularly treated with Stoko® Skin Relief or Stokolan®. In doing so, the skin is replenished with moisture, lipids and hydrophilic nutrients. People who already have extremely rough or very dry skin are advised to use a before-work cream with high oil content. Contact STOKO® Skin Care or its appointed distributors for advice on selecting the appropriate products.
